

Alberta Transportation and Economic Corridors

Highway 616 Construction

From Highway 778 to 3 Kilometres West of Highway 780, North of Pigeon Lake

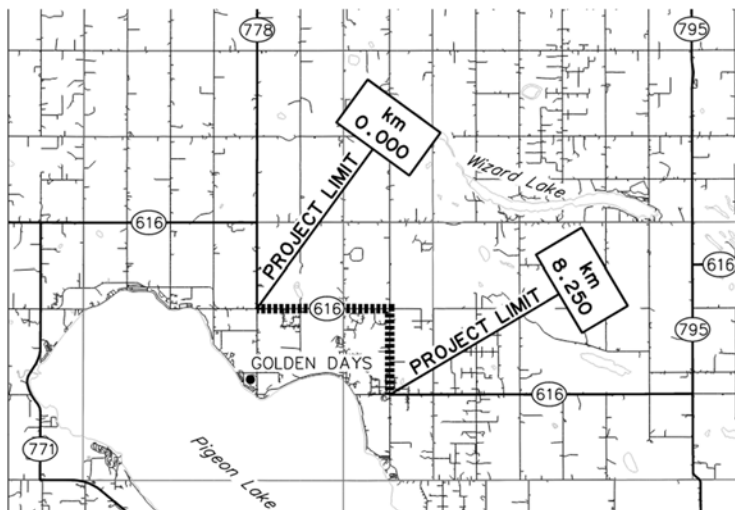

Overview

Beginning May 2024, Alberta Transportation and Economic Corridors will begin construction on Highway 616, from Highway 778 to 3 kilometres West of Highway 780, North of Pigeon Lake.

Project Details

The project will include approximately 8 km of milling the existing pavement and installation of new asphalt concrete pavement surface. The intersection of Highway 616 and Range Road 10 will also be upgraded as part of this project.

Construction activities are anticipated to begin during the first week of May 2024 and take approximately 6 weeks to complete, weather permitting. Work on site will typically take place between the hours of 7 am to 7 pm. No work will occur during special events or long weekends. Any required aggregate materials will be hauled to the project site from near the Town of Drayton Valley using Highway 39, Highway 20 and Highway 616.

Traffic Impacts

As with any construction project, travelers may experience speed reductions, lane closures and minor delays. Signage with additional information on construction timing will be posted on site a week before construction begins. **No detours are anticipated.** A traffic accommodation strategy is also in place to mitigate the impacts to travelers. This includes additional signage, delineation, and if required, illumination. Please watch for all and obey all construction zone signage. For up to date information on this project, please call 5-1-1 toll free or visit 511.alberta.ca
